

Early Journal Content on JSTOR, Free to Anyone in the World

This article is one of nearly 500,000 scholarly works digitized and made freely available to everyone in the world by JSTOR.

Known as the Early Journal Content, this set of works include research articles, news, letters, and other writings published in more than 200 of the oldest leading academic journals. The works date from the mid-seventeenth to the early twentieth centuries.

We encourage people to read and share the Early Journal Content openly and to tell others that this resource exists. People may post this content online or redistribute in any way for non-commercial purposes.

Read more about Early Journal Content at <http://about.jstor.org/participate-jstor/individuals/early-journal-content>.

JSTOR is a digital library of academic journals, books, and primary source objects. JSTOR helps people discover, use, and build upon a wide range of content through a powerful research and teaching platform, and preserves this content for future generations. JSTOR is part of ITHAKA, a not-for-profit organization that also includes Ithaka S+R and Portico. For more information about JSTOR, please contact support@jstor.org.

BULLETIN

OF THE

TORREY BOTANICAL CLUB

VOL. 30

FOUNDED BY WILLIAM H. LEGGETT, 1870

EDITOR
JOHN HENDLEY BARNHART

ASSOCIATE EDITORS

NATHANIEL LORD BRITTON	DANIEL TREMBLY MACDOUGAL
TRACY ELLIOT HAZEN	WILLIAM ALPHONSO MURRILL
MARSHALL AVERY HOWE	HERBERT MAULE RICHARDS
ANNA MURRAY VAIL	

NEW YORK
1903
PUBLISHED FOR THE CLUB
THE NEW ERA PRINTING HOUSE
LANCASTER PA.

CONTENTS

- ARTHUR, J. C. Problems in the Study of Plant Rusts, 1.
- BERRY, E. W. The American Species Referred to *Thinnfeldia*, 438.
- BEST, G. N. Revision of the North American Species of *Leskea* (with Plates 15 and 16), 463.
- BRAY, W. L. The Tissues of Some of the Plants of the Sotol Region (with ten figures), 621.
- BRITTON, N. L. Timothy Field Allen (with portrait), 173.
- BRITTON, W. E. Vegetation of the North Haven Sand Plains (with Plates 23-28), 571.
- BUSH, B. F. A List of the Ferns of Texas, 343.
- CANNON, W. A. Studies in Plant Hybrids: The Spermatogenesis of Hybrid Cotton (with Plates 7 and 8), 133.
- Studies in Plant Hybrids: The Spermatogenesis of Hybrid Peas (with Plates 17-19), 519.
- CLEMENTS, F. E. *Nova Ascomycetum Genera Speciesque*, 83.
- CUSHMAN, J. A. Desmids from Bronx Park, New York, 513.
- EASTWOOD, A. New Species of *Oreocarya*, 238.
- New Species of Western Plants (with a figure), 483.
- EATON, A. A. *Isoetes riparia Canadensis* and *Isoetes Dodgei*, 359.
- EVANS, A. W. Hepaticae of Puerto Rico — II. *Drepanolejeunea* (with Plates 1-6), 19.
- Hepaticae of Puerto Rico — III. *Harpalejeunea*, *Cyrtolejeunea*, *Euosmolejeunea* and *Trachylejeunea* (with Plates 20-22), 544.
- FINK, B. Some Common Types of Lichen Formations, 412.
- GIES, W. J. See TRUE, R. H.
- GOEBEL, K. Regeneration in Plants (with four figures), 197.
- GRIGGS, R. F. On Some Species of *Heliconia* (with Plates 29 and 30 and three figures), 641.

- HARPER, R. M. Botanical Explorations in Georgia during the Summer of 1901 — I. Itinerary (with three figures), 282.
—— Botanical Explorations in Georgia during the Summer of 1901 — II. Noteworthy Species, 319.
- HOLLICK, A. A Fossil Petal and a Fossil Fruit from the Cretaceous (Dakota Group) of Kansas (with seven figures), 102.
- HOWE, M. A., and UNDERWOOD, L. M. The Genus *Riella*, with Descriptions of New Species from North America and the Canary Islands (with Plates 11 and 12), 214.
- KELLERMAN, K. F. The Effects of Various Chemical Agents upon the Starch-converting Power of Taka Diastase, 56.
- KUNZÉ, R. E. The Desert Flora of Phoenix, Arizona, 302.
- KUPFER, E. M. Anatomy and Physiology of *Baccharis genisteloides* (with eleven figures), 685.
- MACDOUGAL, D. T. Some Correlations of Leaves (with two figures), 503.
- MEZ, C. Bromeliaceae Nicaraguenses Novae, 435.
- MORGAN, T. H. The Hypothesis of Formative Stuffs, 206.
- MURRILL, W. A. The Polyporaceae of North America — II. The Genus *Pyropolyporus*, 109.
—— The Polyporaceae of North America — III. The Genus *Fomes*, 225.
—— The Polyporaceae of North America — IV. The Genus *Elfvingia*, 296.
—— The Polyporaceae of North America — V. The Genera *Cryptoporus*, *Piptoporus*, *Scutigera* and *Porodiscus*, 423.
- NASH, G. V. A Preliminary Enumeration of the Grasses of Porto Rico, 369.
—— A Revision of the Family Fouquieriaceae, 449.
- OSTERHOUT, G. E. New Plants from Colorado (with a figure), 236.
- PECK, C. H. New Species of Fungi, 95.
- PIPER, C. V. A New Species of *Waldsteinia* from Idaho, 180.
—— Four New Species of Grasses from Washington, 233.

- RENNERT, R. J. The Phyllodes of *Oxypolis filiformis*, a Swamp Xerophyte (with three figures), 403.
- ROWLEE, W. W. Notes on Antillean Pines with Description of a New Species from the Isle of Pines, 106.
- RYDBERG, P. A. Studies on the Rocky Mountain Flora—X, 247.
 — Some Generic Segregations (with Plates 13 and 14), 271.
- SEEMEN, O. VON. Three New Willows from the Far West, 634.
- SHELDON, E. P. New Species from the Pacific Coast—I, 308.
- TRUE, R. H., and GIES, W. J. On the Physiological Action of Some of the Heavy Metals in Mixed Solutions, 390.
- UNDERWOOD, L. M. An Index to the Described Species of *Botrychium* (with seven figures), 42.
 — A Summary of our Present Knowledge of the Ferns of the Philippines, 665.
 — See also HOWE, M. A.
- VAIL, A. M. Studies in the Asclepiadaceae—VII. A New Species of *Vincetoxicum* from Alabama (with Plates 9 and 10), 178.
- VRIES, H. DE. On Atavistic Variation in *Oenothera cruciata* (with fourteen figures), 75.
- WIEGAND, K. M. Some Notes on *Juncus*, 446.
- INDEX TO RECENT LITERATURE RELATING TO AMERICAN BOTANY,
 71, 121, 182, 263, 312, 363, 419, 460, 515, 564, 637, 697.

Dates of Publication

No.	Month.	Pages	Issued
No. 1,	for January.	Pages 1-74.	February 4, 1903.
No. 2,	February.	75-132.	February 28, 1903.
No. 3,	March.	133-196.	April 8, 1903.
No. 4,	April.	197-270.	April 24, 1903.
No. 5,	May.	271-318.	May 16, 1903.
No. 6,	June.	319-368.	June 11, 1903.
No. 7,	July.	369-422.	July 10, 1903.
No. 8,	August.	423-462.	August 4, 1903.
No. 9,	September.	463-518.	September 3, 1903.
No. 10,	October.	519-570.	October 5, 1903.
No. 11,	November.	571-640.	November 4, 1903.
No. 12,	December.	641-709.	December 5, 1903.

Errata

- Page 57, line 4, for "concentration" read "dilution."
- Page 57, line 27, for "3 per cent." read ".5 per cent."
- Page 57, line 29, for "1.5 per cent." read "1 per cent."
- Page 65, the percentages in the first section of Table I should be reversed: for "3%" read " $\frac{1}{2}\%$," for " $1\frac{1}{2}\%$ " read "1%," for "1%" read " $1\frac{1}{2}\%$ " and for " $\frac{1}{2}\%$ " read "3%."
- Page 133, last footnote, for "Febuary" read "February."
- Page 137, line 5, for "hydrids" read "hybrids."
- Page 223, line 15, for *A. Battandieri* read *R. Battandieri*.
- Page 261, line 19, for *S. inconspicua* read *G. inconspicua*.
- Page 331, line 24, for "upper leaves" read "upper surface."
- Page 340, line 26, for "babit" read "habit."
- Page 347, line 14, for *Gymnopterus* read *Gymnopteris*.
- Page 350, line 1; page 353, line 25; page 358, line 5, for "Fee" read "Fée."
- Page 352, line 26, for CHEILANTHUS read CHEILANTHES.
- Page 374, line 7, for MONACHNE PUNCTATA read **Monachne punctata**.
- Page 377, line 34, for **Isachne angustifolium** read **Isachne angustifolia**.
- Page 378, line 35, for TRICHACHNE INSULARE read TRICHACHNE INSULARIS.
- Page 453, line 6, for "presence" read "precedence."
- Page 503, lines 25 and 34, for "Nemeč" read "Němec."

The Index to Recent Literature has contained a number of minor inaccuracies. The most important which have been noted are the following:

- Claassen, E.** Twice incorrectly spelled **Claasen** (page 184).
- Kearney, T. H.** The Protective Function of Raphides. The pagination should be 244 instead of 224 (page 567).
- Norton, J. B. S.** *Sclerotinia fructigena*. The date should be 1902 instead of 1892 (page 73).
- Smith, J. D.** Enumeratio, etc. The date of part 5 should be 1899 instead of 1903 (page 462).
- Van Tieghem, P.** Wrongly spelled **Van Teighem** in one instance (page 570).
